# Alamo

**Alec Benjamin**

Please give me a reason to believe all the lies
'Cause my teachers and the media are ghouls in disguise
Abusing their authority to proselytize
But nothing they report to me could change my mind

I need a vacation from the way things have been
Because I'm growing impatient, yeah, it's boiling my skin
Had enough manipulation can you just let me live?
Live my life

I'm not gonna give in, if I have to fight
Then I'm willing to give my life, rather die
Than lay down on my back, got no white flag to throw
This is my Alamo, this, this is my Alamo

Please give me a reason to give up on myself
You can tell me that it's treasonous to stand and rebel
I won't pledge you my allegiance, I'll just bid you farewell
And goodbye

I'm not gonna give in, if I have to fight
Then I'm willing to give my life, rather die
Than lay down on my back, got no white flag to throw
This is my Alamo, this, this is my Alamo

I know that on the surface it might seem like I'm just fine
But I can't eat, I barely sleep, sometimes I wanna run and hide
Feel like I'm dying in this cage, my soul is trapped, I feel co
nfined
And I just wish they'd let me out so I could finally live my li
fe
