

Use Me

Alec Benjamin

I like it that you're calling
Every time you need something from me, mm
I know you think I'm falling
For all these tricks you're hiding up your sleeve, mm

Pull a rabbit from your hat
Anything just to distract
From the motives that you don't know I can see
Pull the wool over my eyes
You don't know what you hide
Is providing me with everything I need

I know that you are using me, I'll just keep it to myself
'Cause I know if I don't then you'll just use somebody else
I like it when you're using me, so I'll keep it to myself
'Cause I know if I don't then you'll just use somebody else
Use me
Use me
Use me
Don't use somebody else
Use me
Use me
Use me
Don't use somebody else

I know that it's so easy
To get me to do anything you ask, mm
I know that you don't need me
But you know that I will keep on coming back, mm

Pull a rabbit from your hat
Anything just to distract
From the motives that you don't know I can see
Pull the wool over my eyes
You don't know what you hide
Is providing me with everything I need

I know that you are using me, I'll just keep it to myself
'Cause I know if I don't then you'll just use somebody else
I like it when you're using me, so I'll keep it to myself
'Cause I know if I don't then you'll just use somebody else
Use me
Use me
Use me
Don't use somebody else
Use me
Use me
Use me
Don't use somebody else
