

Closure

Alec Chambers

You texted me at a quarter to three
What you always do, girl, you confuse me
Lovin' you makes me feel used up, yeah
But that's just what we do and it's up to us
My head spins with every word you write
'Cause everything we had felt like a big mistake
Say goodbye to such a love so strong
Turn on myself, with you I don't know where I've gone

You got a way of makin' me feel like shit
If this is over then I have to get over
I just want some closure
Won't you take a close up?
If it's really over tell me when I let go
I want some closure
I hate to say I told ya
But I need to get sober
Tell me when do I let go
Man, I just want some closure
Won't you take a close up
If it's really over
Tell me when do I let go
I mentioned my composure
I hate to say I told ya
I need to get sober
Tell me when do I let go
Man, I just want some closure

Like a drug I can never get enough
I got addicted, had to get off yourself
You're like the opposite of [?]
You come back into my life [?]

You got a way of makin' me feel like shit
If this is over then I have to get over
I just want some closure
Won't you take a close up?
If it's really over tell me when do I let go
I want some closure
I hate to say I told ya
But I need to get sober
Tell me when do I let go
(Tell me when do I let go)
Tell me when do I let go
Man, I just want some closure
I just want some closure
Won't you take a close up
If it's really over
Tell me when do I let go
I mentioned my composure
I hate to say I told ya
I need to get sober
Tell me when do I let go
Man, I just want some closure
