

Oasis

Alec Chambers

I'll find love when the planets align
Been through the wasteland, lost my mind
Learned from the scars and this heart of mine
That anyone but you is a waste of time

And when my flaws start to show
You lift me up from a low
Stay by my side and I know
You're where I belong

My oasis
A paradise in the dark
A saving grace when I'm lost
My whole heart
My oasis
In the middle of nothing at all
A place where I'm all yours
Right where we are
My oasis

Flowing through your energy
Something higher, heavenly
Found you, found out I was saved
Oh

And when my flaws start to show
You lift me up from a low
Stay by my side and I know
You're where I belong

My oasis
A paradise in the dark
A saving grace when I'm lost
My whole heart
My oasis
In the middle of nothing at all
A place where I'm all yours
Right where we are
My oasis
My oasis

I'll find love when the planets align
Been through the wasteland, lost my mind

My oasis
A paradise in the dark
A saving grace when I'm lost
My whole heart
My oasis
In the middle of nothing at all
A place where I'm all yours
Right where we are
