

# Rotate

Alec Chambers

Two shots laid me down like a sedative  
Cycles day and nights get repetitive  
Never could smell the roses, desensitized  
Had no radio on was I good to drive?

Like all of my colors were muted  
Like all of my dreams felt stupid  
And all of my thoughts were foolish  
Friends kept saying that I gotta get through it  
And all of my clothes got darker  
Couldn't hold on much longer  
So funny and strange how everything changed  
It was never the same

You flip my world  
I can feel it rotate  
Mmm  
You flip my world  
I can feel it rotate  
Mmm  
From the very first conversation  
There's something different in your whole vibration

You flip my world  
I can feel it rotate  
Mmm  
You flip my world  
I can feel it rotate  
Mmm  
Oh, and I never thought that could happen to me

Nothing gets me high like the way you do  
Burning all my love, leave no residue  
Never could feel a purpose till you arrived  
Now I scream every song 'cause I feel alive

And all of the colors seem brighter  
And all of my worries got lighter  
All of these voices quieter  
Friends keep saying I'm a helluva fighter  
From when all of my clothes got darker  
I couldn't hold on much longer  
So funny and strange how everything changed  
It was never the same  
Oh baby you

You flip my world  
I can feel it rotate  
Mmm  
You flip my world  
I can feel it rotate  
Mmm  
From the very first conversation  
There's something different in your whole vibration

You flip my world  
I can feel it rotate

Mmm

You flip my world

I can feel it rotate

Mmm

Oh, and I never thought that could happen to me
