

# Something To Cry About

Alec Chambers

Chasing something I'm not  
Just to share the same thoughts with you  
I think it's a lost cause  
Think we should call off. Yeah  
Problems we never solve  
Rights that always go wrong with you  
This isn't gonna last long, we should call off  
Yeah I keep getting drunk with you  
'Cause we don't have enough to do  
I know that both of us could use a sober night

How does it feel when the liquor runs out?  
Would it be real if we burnt it all down?  
Would there be tears if we let it all out?  
Let it all out  
I wish you'd give me something to cry about  
I wish you'd give me something to cry about  
I wish you'd give me something to cry about  
Cry about

You say that I'm all that you ask  
But leave me all in the past  
But I shouldn't want more  
That's what the wrongs for  
No I shouldn't be running in the dark  
Every Saturday riding in your car  
Thought I knew you now, I wonder who you are  
I still keeping pouring, getting drunk with you  
'Cause we don't have enough to do  
I know that both of us could use a sober night

How does it feel when the liquor runs out?  
Would it be real if we burnt it all down?  
Would there be tears if we let it all out?  
Let it all out  
I wish you'd give me something to cry about  
I wish you'd give me something to cry about  
I wish you'd give me something to cry about  
Cry about
