

# Think About Me

Alec Chambers

I don't spend much time  
Seeing the daylight  
And I don't give much thought  
To anything but you  
You've got your full days  
But they always end too soon  
And I've got these mornings  
That last until the moon comes  
Last until the moon

So baby when you're all alone  
Don't think about your loneliness, it's all wrong  
Think about me, think about me  
I know the space between us will be a little longer  
Babe I'll go the distance, this love keeps getting stronger  
I know what I'm feeling, baby we got love  
You're everything I want

I don't have much brains  
I've never was that smart  
But I'm going insane  
As you toy with my heart  
You've got your confidence  
And I've recordings, I've  
Spent all of my time  
Thinking of you and what you do to me

So baby when you're all alone  
Don't think about your loneliness, it's all wrong  
Think about me, think about me  
I know the space between us will be a little longer  
Babe I'll go the distance, this love keeps getting stronger  
I know what I'm feeling, baby we got love  
You're everything I want

So baby when you're all alone  
Don't think about your loneliness, it's all wrong  
Think about me, think about me  
I know the space between us will be a little longer  
Babe I'll go the distance, this love keeps getting stronger  
I know what I'm feeling, baby we got love  
You're everything I want
