Whole Again

Alec Chambers

I wanted someone like you
Someone that always comes through
I guess my life needs a soundtrack
Till now I walked on a wire
I was still playing with fire
You put them pieces of me back

This feels so totally right

You made me, whole again
You made me, whole again
You made me, notice when
You gave me something to believe in, believe in

People talk, but I'm not listening
In all that noise that you dismissing
You always get within my position

You made me, whole again
You gave me something to believe in

No profits that I can trust in
But girl you keep me breathin'
Sometimes things they just work out
You're like a desert island
More like an uncut diamond
Your belief takes the weight out

Somebody's looking out for me

You made me, whole again
You made me, whole again
You made me, notice when
You gave me something to believe in, believe in

The way I feel, there's no denyin'
You and me, yeah we could be flyin'
Nothing could stop this way that we lightin'

You made me, whole again
You made me, whole again
You gave me something to believe in

I don't know what I would do
If I couldn't get with you
I don't know what I would do

You made me, whole again
You made me, whole again
You made me, notice when
You gave me something to believe in, believe in

People talk, but I'm not listening
In all that noise that you dismissing
You always get within my position

You made me, whole again

You made me, whole again
You gave me something to believe in
Something to believe in
Something to believe in
Something to believe in
Something to believe in
