

# If You Believe

Alecia Elliott

If you believe

Deep in your heart and things that aren't possible suddenly

If you believe

A wish upon a star might really come true from me because

If you believe

That reindeer can fly there's a moment it's seems impossible on  
Christmas

Eve in the night

While children asleep when Santa comes by in delivery gifts, on  
ly if

If you believe

Run to the edge of your dreams and jump over the side at least  
once in your

Life

It's time to start spreading your wings and take to the sky

If you believe

In just what you see and I don't is if magical can it possible  
it be and

Open your mind and repeat after me anything you can imagine can  
be achieved

If you believe

I have to believe it

If you believe
