

No One Like You

Alee

You're a conversation
Like a backroad, real slow
Every word you say is right

Your heart is like a diamond
You're my rock with a soft side
Certified, one of a kind

Loving you's easy
It's just like breathing
Words alone can't explain
How I'm feelin'

'Cause there's no one like you
No one like you
Makes me feel the way that you do
Everyday just like you do, no
Couldn't replace ya even if I wanted to
'Cause there's no one like you
No one like you

You make all my worst days
Feel like my birthday
You know how to love it gone
You've got all the jokes
That make me laugh 'til I'm crying
Don't know where you get it from

Baby, you know that
This heart is fragile
But I know you and I know you'll be careful

'Cause there's no one like you
No one like you
Makes me feel the way that you do
Everyday just like you do, no
Couldn't replace ya even if I wanted to
'Cause there's no one like you
No one like you

There ain't no downtown city lights
Small town Friday nights
With a guy just like you
'Cause there's no one like you

Yeah, there's no one like you
No one like you
Makes me feel the way that you do
Everyday just like you do, no
Couldn't replace ya even if I wanted to
'Cause there's no one like you
No one like you

'Cause there's no one like you
No one like you
Makes me feel the way that you do
Everyday just like you do, no

Couldn't replace ya even if I wanted to
'Cause there's no one like you
No one like you

Yeah, there's no one like you
No one like you
Yeah, there's no one like you
No one like you
