

## About This Love

Alejandro Escovedo

It's all about this Love  
It's all about this Pain  
It's all about this Loss  
We take to live again  
So if you see me 'round  
C'mon let me in  
If you see me falldown  
Won't you let me in -----

There's a story inside your eyes  
That needs a witness...  
There's a rhythm to these lies  
That might explode -----.  
Sometimes this great big world  
Just ain't large enough  
So kiss one more time ---  
And then again...

It's all about this Love -----  
It's all about this Pain -----  
It's all about this Loss -----  
We break, to Love again -----

This happy town has many secrets  
Enough to spark a towering wave of fire -----  
So why this interest when they could  
Just leave us -----  
Connected by the distance of your smile...

It's all about this Love ...  
...
