

As I Fall

Alejandro Escovedo

I watch you walk away from me
It's all that's about you
And as I lean into this fall
I'll always surround you -----

As I fall, all around you
Voices call, but what: can I do?

A circle burnt into the sand
Is someone without you
Who placed a ring upon your hand
To try and disguise you -----

As I fall, all around you
Voices call, but what: can I do?

The things I meant to say
All seem to slip away -----

The forward motion of this fall
Is only because you -----
Smile as you slip yourself on me
The danger becomes you -----

As I fall, all around you
Voices call, but what: can I do?
