Common Mistake

Alejandro Escovedo

Sometimes I wonder where everybody's going
Sometimes I wonder if I was here at all
Sometimes I wonder if we're living in the same world
Sometimes I wonder if I care enough to call

C'mon it's a common mistake
C'mon it's a common mistake

Sometimes I wonder where on earth we're going
Sometimes I wonder if we ain't already there
Sometimes I wonder what was she thinking
What was she thinking when she turned to go

C'mon it's a common mistake
C'mon it's a common mistake

Oh but I choose love over aggravation
Anytime I only want it all
Oh but I choose love over everything
Anytime I only want it all

Sometimes I wonder how you see your reflection
The way you hold the mirror up way too long
Sometimes I wonder if you know what you been doin'
All these days we just barely get along

This kind of love don't answer to nobody
This kind of love everybody wants
Sometimes I wonder if you know what you got babe
Sometimes I wonder if you'll answer when I call

C'mon it's a common mistake
C'mon it's a common mistake
C'mon it's a common mistake
C'mon it's a common mistake
