

# Mountain of Mud

Alejandro Escovedo

Try to hide a pearl in a mountain of mud  
You know the water's gonna find it someday  
I tried to tell the girl of a stick in the mud  
But she didn't learn it that way  
So I'm feeling kinda bad  
I asked her for a hand  
She said I didn't make you that way  
Well that's not the point and even if it was  
You know I still need some love today

I want some, I really want some, I want some now  
I want some, I really want some, I want some now

You know if I held the key to the pearly gates  
You know I'd open up and let you inside  
If I had a dream to which you could relate  
You know I'd let it ride  
Though the price, even that I would pay  
To put you by my side  
So c'mon little beggar won't you jump inside  
C'mon let's really ride

I want some, I really want some, I want some now  
I want some, I really want some, I want some now

If you tried to hide a pearl in a mountain of mud...
