# Smoke

**Alejandro Escovedo**

Well you smoke baby smoke 'til the break of dawn
Gonna light you up gonna sing your song
Come on baby baby make me feel so strong

I hear they're going bop bop baby all night long
The kids that got started gonna do the dog
Dance with me baby, dance with me on and on

Outside the disco, Yeah, they wouldn't let me in
Here comes Laurie, you know she could have been my twin
All dolled up, just one place to go

Come on baby come on let's do the stroll
Take my hand I'll teach you how to roll
Come on baby, love me baby on and on
Yeah baby going whop bop gonna wind you up
Take my hand I'll teach ya do the stroll
Come on baby, love me baby on and on

You remember Dietrich oh how could I forget?

He did time in Chino, never made it out I guess
Happier endings for you and me

You're going bop bop baby all night long
You gotta turn it up or turn it on
Kiss me one time baby make it feel so strong

Sweet Bonita, yeah she really got around
Lenny told me she finally settled down
Up in Fairbanks Alaska, raising kids
(Yeah she's all right)

Go smoke baby smoke
Go smoke baby smoke
Go smoke baby smoke
Go smoke baby smoke
Yeah, yeah, yeah, yeah, all night long
