Everywhere I Go

Alesha Dixon

Oooh, caught up (x3)

Everywhere I go, oh I see ya Try to catch your eye I, I feel a strong attraction taking over me Then I take a step in your direction Lemme see what you're gonna do Im'ma see if you can handle me

Oooh, caught up Think I'm playing round with ya, nah-nah I don't have no time for some games (?) People act your age, yeah Just tell me what I can do for you baby My love ain't for free, but I'm worth it I'm the type of girl to give you what you need

Everywhere I go, I see ya Something in your eyes, I feel ya Oh, everywhere I go I see ya Something in ya, ya gotta get it from me baby Try to act like you're heavy too Don't front like it ain't you Cos I got you looking like you need me, yeah I'm gonna get ya right where I need ya Have your body shaking like a seizure You ain't never met nobody, nobody like me

Oooh, caught up Everywhere I go, I see ya Something in your eyes, I feel ya Oh, everywhere I go, I see ya Something in ya, ya gotta, ya gotta get it from me

Yo he's everywhere I go and everywhere I go I see him I can't complain cos he's someone that I'm feeling I know he likes me cos of the way he stares I'm staring at him tryna figure should I take him upstairs? But nah-ah, (hey) cos I'm a lady baby (Hey) So talk right, and listen maybe baby We can hang out or maybe we can just chill I see ya still playing games, so yeah we'll just chill That's the kinda vibes I don't like in a dude See him carryin' on and gwanin' with the same attitude Acting like he's heavy, when he knows he should be ready ready Until the time is right, I'm gon' shelly shelly (?) We're gonna hit the point of no return Crank it up, get it hot Cos all I want is some action Just a little action for me

Oooh, caught up (x3)

Everywhere I go, I see ya Something in your eyes, I feel ya Everywhere I go, I see ya Something in ya, ya gotta get it from me baby Everywhere I go, I see ya Something in your eyes, I feel ya Ooh, everywhere I go, I see ya Something in ya, ya gotta, ya gotta get it from me baby
