

Let It Go

Alesha Dixon

We gone to party
Time to get started
Oh (oh) no (no)
Crank this club to ain't no mo
Get lights off some like crunk
Walkin' to the club tryna get a girl drunk
Lookin' for the girl with the thick big booty ???
Wonk it a wonk it a wonk it a wonk
Watch yourself before you judging
Make sure that you're right
Check the way you look other people are you pure inside
A little something to make a difference if that's all you do
It seems that you talk about it and it'll all stop with you
You you must know it stop with you
We should pull it together see it through

It's now you oughta shut ya mouth
Cuz you making no sense what you talking about
Whatever get up there now that words got spoke
Why you wanna keep it all inside
You can open up your mind and let it flow
Whatever get up here it's time to let it go
Oh (oh) no (no) yeah yeah yeah yeah yeah
Be more than you thought ever could be get more out of yourself
Watch it even if what you gonna saw
You could never tell
I'm not tryna tell you watch your business
It's for you to know
Look I was up in all around you
We all need to grow
You you must know it starts with you
We should pull it together see it through

Girl with the belt she acts like they know me
Hood to the hills like acting kobe
Last check 10 mil like acted they only
Only date model chicks just asked naomi
Don't be the one that stand there and hide there
Cuz sometimes you feel undecided
Let it go there's no need to fight it
Who you worry is all on you

Call nick cannon ask the boy what's up
It's Friday do you wanna hit the club
I got a pocketful money so we can ball
Hit the booty club titty club take it out
Why you wanna keep it all inside
You can open up your mind and let it flow
Whatever get up here it's time to let it go
