

# Play Me

Alesha Dixon

Baby, Baby, Oh  
Do you want to see me  
Never really want to fight the feeling  
And I like the color of your eyes  
Baby baby  
Many times the words are spoken  
No doubt somebody will decide

Play me  
And strum me like a guitar  
Play me  
You make me wanna ooh ah  
Play me  
Oh baby baby keep me moving  
On and on and on  
Play me  
And strum me like a guitar  
Play me  
You make me wanna ooh ah  
Play me  
Oh baby baby keep me moving  
On and on and on

Maybe you don't wanna be here  
Cause time after time gets riddled  
And I know the price you've paid turn away  
Someday everything you want  
And desire  
To find another way move higher  
And I know the price you've paid turn away

Play me  
And strum me like a guitar  
Play me  
You make me wanna ooh ah  
Play me  
Oh baby baby keep me moving  
On and on and on  
Play me  
And strum me like a guitar  
Play me  
You make me wanna ooh ah  
Play me  
Oh baby baby keep me moving  
On and on and on

Maybe you don't wanna be you  
Cause everything we do gets mirrored  
And I know the price you've paid get away  
Someday everything you want and desire  
Will be the thing that gets you higher  
Cause I know the price you've paid turn away

Play me  
And strum me like a guitar  
Play me  
You make me wanna ooh ah

Play me  
Oh baby baby keep me moving  
On and on and on  
Play me  
And strum me like a guitar  
Play me  
You make me wanna ooh ah  
Play me  
Oh baby baby keep me moving  
On and on and on

It's a flashback baby  
Woo woo woo  
You got me seeing things  
I never would see before  
And now I flashback  
I've hit the roof  
And now you're loving it  
And you're wanting it  
I'm not losing it over you boy  
Flash baby woo woo woo  
You got me seeing things  
I never would see before  
And now I flashback  
I've hit the roof  
And now you're loving it  
And you're wanting it  
I'm not losing it over you boy

Play me  
And strum me like a guitar  
Play me  
You make me wanna ooh ah  
Play me  
Oh baby baby keep me moving  
On and on and on  
Play me  
And strum me like a guitar  
Play me  
You make me wanna ooh ah  
Play me  
Oh baby baby keep me moving  
On and on and on
