

# Tallest Girl

Alesha Dixon

Skyscrapers don't mean a lot  
The way you elevate, and turn me up  
You push me up to the highest spot  
All you got, don't never stop

Your beat's so strong, it really turns me over  
Really rushing inside my veins  
Those deep foundations you're building under  
Putting rocks inside of me

The way you lift me up, I feel so high  
The way you loved me, I can touch the sky  
Put me right on top the world  
Like I'm the tallest girl, tallest girl  
Like I'm the tallest girl, tallest girl

You can't fake this chemistry  
It's real love with you and me  
Going up in a fantasy  
Cruising up 30 thousand feet

Your beat's so strong, it really turns me over  
Really rushing inside my veins  
Those deep foundations you're building under  
Putting rocks inside of me

The way you lift me up, I feel so high  
The way you loved me, I can touch the sky  
Put me right on top the world  
The way you life me up, I feel so high The way you loved me, I can touch the sky  
Put me right on top, standing right on the top  
Like I'm the tallest girl, tallest girl  
Like I'm the tallest girl, tallest girl

Your beat's so strong, it really turns me over  
Feel you rushing inside my veins  
Those deep foundations you're building under  
Make me feel like the tallest girl  
Feel like the tallest girl

Tallest girl, tallest girl  
Tallest girl, tallest girl

The way you lift me up, I feel so high  
The way you loved me, I can touch the sky  
Put me right on top the world  
The way you lift me up, I feel so high  
The way you loved me, I can touch the sky  
Put me right on top, standing right on top  
Like I'm the tallest girl, tallest girl  
Like I'm the tallest girl, tallest girl
