

Queen Almighty

Alessandra

Queen almighty don't you know
That your king is a hoe
Half the damsels in the castle
Playing with his sword
Drama has been dramaing
You're the queen, make a scene
Get your act together
Sit yo ass back on the throne

Bad figaro
Bad figaro
How could you
Fall for figaro aaa
Handed him a loaded gun
Now you stand there ready for the shot

Bad figaro
Bad figaro
Let go of her heart
Bad figaro
She'll forgive you more than once
But If I see you
You better run

My baby don't you cry
Just stop believing in his lies
I've been good
I've been kind
Always stood by your side
Now it's time that you open up your eyes

Queen almighty don't you know
That your king is a hoe
Half the damsels in the castle
Playing with his sword
Drama has been dramaing
You're the queen, make a scene
Get your act together
Sit yo ass back on the throne

Bad figara bad figara
It's time to wake up bad figara
Tough love's what you're getting now
Cuz my patience started running out

He's a real catch still living with his mom
Real snack, been inside everyone
Been there, done that, know you're gonna run back
When he's blowing up your phone

My baby don't you cry
Just stop believing in his lies
I've been good
I've been kind
Always stood by your side
Now it's time that you open up your eyes

Queen almighty don't you know
That your king is a hoe
Half the damsels in the castle
Playing with his sword
Drama has been dramaing
You're the queen, make a scene
Get your act together
Sit yo ass back on the throne
