

## Old AF

Alex Aiono

Being young's pretty easy to forget  
When you're 16 paying mom and dad's rent  
16 with no other young friends  
16 so much weight on your chest

Being young is a pretty tough task  
When you're 16 dropping out of your class  
16 missing every school dance  
16 putting family on your back

Some days I'm running out of breath  
Some days I'm running out of time  
But everyone I talk to laughs and says they're both on my side  
So, what's goin on with my mind?

I feel old as fuck for being 23  
I feel old as fuck for being 23  
I got the whole ass world sitting in front of me  
Big love, big dreams sitting under me  
I feel old as fuck for being 23

18 years old, I really thought I was going to hell  
Had to binge all the sins had to see for myself  
I turn 20 I was back on my health  
And it's funny cause the money started making itself

I hit 21 they say hey you're an adult now  
I'm like what were those last 5 years about  
I know it's only been a matter of time  
But to me it really feels like a matter of life

I feel old as fuck for being 23  
I feel old as fuck for being 23  
I got the whole ass world sitting in front of me  
Big love, big dreams sitting under me  
I feel old as fuck for being 23

Some days I'm running out of breath  
Some days I'm running out of time  
But everyone I talk to laughs and says they're both on my side  
I'm starting to think that they're right

But I can't help it, I still feel old as fuck

I feel old as fuck for being 23  
I feel old as fuck for being 23  
I got the whole ass world sitting in front of me  
Big love, big dreams sitting under me  
I feel old as fuck for being 23

I got the whole ass world sitting in front of me  
I got the whole ass world sitting in front of me  
I got the whole ass world sitting in front of me  
I got the whole ass world, I got the whole ass world

I got the whole ass world sitting in front of me  
I got the whole ass world sitting in front of me

I got the whole ass world sitting in front of me  
I got the whole ass world, I got the whole ass world

I got the whole ass world sitting in front of me  
I got the whole ass world sitting in front of me  
I got the whole ass world sitting in front of me  
I got the whole ass world, I got the whole ass world

I got the whole ass world sitting in front of me  
I got the whole ass world sitting in front of me  
I got the whole ass world sitting in front of me  
I got the whole ass world, I got the whole ass world
