Right Here

Alex Aiono

Girl, I'm sick of hearing 'bout your ex
I'm not trying to brush it off
I know that he messed you up
But you can't compare him to the best

Why you trying to run from how you feel?
Go ahead and call me "babe"
Catch yourself and pull away
But I know that you know this is real

But did you forget that we both don't know?
Did you forget that we're not that old?
Did you forget that when you're young and you're dumb and you fall in love
Maybe your heart gets broke?
Did you forget that I'm not the same?
Did you forget you've never felt this way?
And did you forget that if you stop holding on and you let it go
Maybe your heart can change?

I'm right here
I'm ready to deep dive into your darkest fears
I'm right here
I'm ready to fight the battle inside your head
I don't know tomorrow
But today, girl, it's crystal clear
That I'm right here
I'm waiting for you to give into how you feel (But)

Girl, I'm sick of dealing with the games
Why you jumping to the end?
Why you saying we just friends?
Why don't you just let the movie play?

You don't gotta leave me every night
You know my bed is big enough
And I would never press you love
You know that I'm not that type of guy

But did you forget that we both don't know?
Did you forget that we're not that old?
Did you forget that when you're young and you're dumb and you fall in love
Maybe your heart gets broke?
Did you forget that I'm not the same?
Did you forget you've never felt this way?
And did you forget that if you stop holding on and you let it go
Maybe your heart can change?

'Cause I'm right here
I'm ready to deep dive into your darkest fears
I'm right here
Ready to fight the battle inside your head
I don't know tomorrow
But today, girl, it's crystal clear
That I'm right here
I'm waiting for you to give into how you feel

I'm right here

Baby, I'm right
Baby, I'm right
Baby, I'm right here
I'm right here
Please tell me how
Please tell me how
Tell me how you feel

Look
I'm not even saying you should be my wife
But let's open up the door just to see inside
'Cause you don't ever know if you never try
Oh, you don't ever know if you never try

I'm not even saying you should be my wife
But let's open up the door just to see inside
'Cause you don't ever know if you never try
(Oh, you don't ever know)

Don't know tomorrow
But today it's crystal clear
That I'm right here
That I'm right here

That I'm right here
I'm ready to deep dive into your darkest fears
I'm right here
Ready to fight the battle inside your head
I don't know tomorrow
But today it's crystal clear
That I'm right here
And I'm waiting for you to give into how you feel
I'm right here
