

# Take Care of Business

Alex Cameron

When I got home from time abroad, she looked at me  
With eyes as if to say  
Just take care of business  
Yeah just take care of business

When she sees me above the house in a [?]  
Oh, she yells, I hear her say  
Just take care of business  
Yeah just take care of business

And by the dam below the house with the yelping pups  
Oh, she ties a rope around  
Just take care of business  
Just take care of business

And when we kiss I feel her smile, and then she stops  
Oh, she stops and looks at me  
Just take care of business  
Please take care of business

With a metal wreck, with a rusty tool, with snakes below  
Ooh, she grabs the axe from me and takes care of business  
Ooh, she takes care of business  
Ooh, she takes care of business

I ain't half the man I wanted to be  
I ain't half the man I wanted to be  
Ooh, ya gotta take care of business  
Ooh, ya gotta take care of business  
I ain't half the man I wanted to be  
I ain't half the man I wanted to be  
Ooh, ya gotta take care of business  
Ooh, ya gotta take care of business
