

# Sanctuary

Alex Clare

You left me broken  
So many tears I cried for you  
Tried to understand  
all that we've been through

Lost, confused  
Is this hope? Abuse?  
I'll still shelter you  
keep you warm  
Protect you from the storm  
Holding you close to my heart

I will find sanctuary in your arms  
I will find sanctuary in your arms  
I will find sanctuary in your open arms  
and I will find sanctuary

Wrapped around you  
The whole world just disappears  
Time stands still when I'm with you  
A moment feels like years

I feel confused  
There's so much to lose  
My head is fighting with my heart  
it feels so torn apart

Holding you close to my heart

I will find sanctuary in your arms  
I will find sanctuary in your arms  
I will find sanctuary in your open arms  
and I will find sanctuary

Just making it up as I go along  
Feels so right when I'm with you  
but I know it's wrong

I will find sanctuary in your arms  
I will find sanctuary in your arms  
I will find sanctuary in your open arms  
and I will find sanctuary
