

Three Hearts

Alex Clare

Was great one day, I was on the pay
Taking minimum wage
Now I got some money, honey
You look like the charm that came my way
Gonna work, gonna save,
Gonna sell it all up for you and me
Need to build a home
Gotta make a house, for just we three

One heart, soon became two
Now there's three hearts beating
Under my roof
One heart, soon became two
Now there's three hearts beating
Under my roof

One starry face, with such grace
Hope my kids will look the same
I never had no one
Now I got you and another on the way!
Guess a traveling heart, chases cars
But we've come so far

Soon I'll have a home,
With a fridge and a porch and a great big old backyard

One heart, soon became two
Now there's three hearts beating
Under my roof
One heart, soon became two
Now there's three hearts beating
Under my roof
Under my roof
Under my roof
