

## Up All Night

Alex Clare

Waking up in someone else's bed,  
is what i was waiting for  
oh my days what have i done,  
she saw me sneaking out the door  
what have i been waiting for,  
been waisting all my time  
watchin my youth slip away  
surely is a crime

And no, she don't know  
what we do in our spare time  
no she don't know that we've been up all night, all night, all  
night, all night

Coz we go on and on and on and on and on  
never knowing where, never knowing where we gonna,  
we gonna, we gonna end up in the morning (2x)

Sun is up while Im walking home,  
but my heads up in the clouds  
trying to get my self to bed  
but i really don't know how,

And no, she don't know  
what we do in our spare time  
no she don't know that we've been up all night, all night, all  
night, all night

Coz we go on and on and on and on and on  
never knowing where, never knowing where we gonna,  
we gonna, we gonna end up in the morning (2x)

When I get myself home to my bedroom,  
im gonna sleep all day  
till the sunsets (4x)

Coz we go on and on and on and on and on  
never knowing where, never knowing where we gonna,  
we gonna, we gonna end up in the morning (2x)
