

# Don't Let The World Turn Past Me

Alex Day

Frozen  
I've lost control  
There's so much I can still achieve  
I'm waiting endlessly  
I need someone to walk me through  
So I'll be safe to continue,  
Or this game's over  
My credits all been spent  
I was made to reach the end  
I'll prove that I can shine  
It's all in my design  
Don't let my enemies kill me  
I will not lose my life  
I'll craft a star all night  
To free my mind  
I'll battle through my mistakes  
The level I am at right now  
Isn't good enough to make me proud  
Experience will help me on  
I won't cheat my way to the top  
No short cuts for me  
My credits all been spent  
I was made to reach the end  
I'll prove that I can shine  
It's all in my design  
Don't let my enemies kill me  
I will not lose my life  
I'll craft a star all night  
To free my mind  
I'll break out of the boundaries of my home  
I'll pick out an objective of my own  
This won't beat me  
I'll prove that I can shine  
It's all in my design  
Don't let my enemies kill me  
I will not lose my life  
I'll craft a star all night  
To stop the world  
From turning past me  
I'll prove that I can shine  
It's all in my design  
Don't let my enemies kill me  
I'll craft a star all night  
To free my miiiiiiind
