

# Scared Like Me

Alex Day

When I was young  
I wanted a coffin  
Cos I was told  
That it was tradition  
Making my mark in the Earth  
Duty was told to come first  
But now I know  
To live and be nervous  
If you're not scared  
You're not living with purpose  
So now they can burn me away  
I'll make my mark other ways

So take a chance  
And run with me tonight!  
And we can dance  
Until we're terrified  
Cos when it's dark  
That's when we'll come alive  
Let yourself be scared like me  
Let yourself be scared like me

I always thought,  
If I had superpowers  
And if I could choose  
How to live out my hours  
I'd choose immortality;  
I'd be here permanently  
But if life's long  
It won't guarantee meaning  
I might just spend  
Twice as long a life sleeping  
So now I think I'd choose to fly;  
It's hard to sleep in the sky

So take a chance  
And run with me tonight!  
Where we can dance  
Until we're terrified  
Cos when it's dark  
That's when we'll come alive  
Let yourself be scared like me  
Let yourself be scared like me

I don't expect your heart  
I only want your honesty  
If I push you too far  
Just tell me like you promised me

So take a chance, and  
Run with me tonight!  
Where we can dance  
Until we're terrified  
Cos when it's dark  
That's when we'll come alive  
Let yourself be scared like me  
Let yourself be scared like me...
