

# That's the Way It Should Be

Alex Day

Today's been one of the harder days I've known  
And I stand, alone  
I wish with all my heart that you were there  
But I know that's not fair, cause

You got your own life  
And you're not in mine  
And that's the way it should  
That's the way it should  
That's the way it should be

I hope that one day  
I won't know your name  
Cause that's the way it should  
That's the way it should  
That's the way it should be

For years I thought I had everything all right  
I messed up, big time  
And I know I can't take back all the things I did  
So we're stuck like this

Well you, you've got your own life  
And you're not in mine

And that's the way it should  
That's the way it should  
That's the way it should be

I hope that one day  
I won't know your name  
That's the way it should  
That's the way it should  
That's the way it should be

All of these faces blend together in the rain  
I might have known you once, but never will again

You've got your own life  
And you're not in mine  
And that's the way it should  
That's the way it should  
That's the way it should be

I hope that one day  
You won't know my name  
Cause that's the way it should  
That's the way it should  
That's the way it should be
