

Always

Alex G

You take the lead
Look up at me
I wonder if you see me
My pounding heart
Your eyes like stars
They only once did see me

Our love is a dance like this

I will always love you
I will always, always
I will always love you
I will always, always

We're growing up
Am I enough?
I wonder if we're breaking
I watch you climb
Through space and time
To let me know you see me

Our love is a dance like this

I will always love you
I will always, always
I will always love you
I will always, always

(Love you) Always
(I will) I will always
(Love you, I will)

Our love is a dance like this
Not knowing what the next step is
But seeing you in all of it

I will always love you
I will always, always
