

Cool Like You

Alex G

From little me to 23
I never compared to you
And every night I'm finding I get
Down looking up to you
No matter how I try I can't erase you from my mind

I wanna be cool like you
Wanna walk and talk like you do
Bending and breaking now, oh tell me you've got it down
I wanna be cool like you
Wanna walk and talk like you do
Bending and breaking now, oh tell me you've got it down

From skinny jeans to photo feeds
I pretend you don't bother me
And I confess that I obsess on
How you're perceiving me
Oh
Yeah no matter how I try I can't erase you from my mind

I wanna be cool like you
Wanna walk and talk like you do
Bending and breaking now, oh tell me you've got it down
I wanna be cool like you
Wanna walk and talk like you do
Bending and breaking now, oh tell me you've got it down

Every lie I'm mistaking
For the light that is in my veins
Oh I've been underestimating me
Every moment I'm faking
I'm at war with the truth in me

I wanna be cool like you
Wanna walk and talk like you do
Bending and breaking now, do I got it?
I wanna be cool like you
Wanna walk and talk like you do
Bending and breaking now, oh tell me I've got it down
I wanna be cool like you
Wanna walk and talk like you do
Bending and breaking now, oh tell me I've got it down
Do I got it down?
I wanna be cool like you
I wanna be cool like you
