

El Paso

Alex G

Growing up El Paso
We barely made ends meet
Trying hard to make a life in a city trying to steal my life from me

Growing up El Paso
Taught me how to take
Drain the light from those who love me
Then chase them all away

I've been fighting hard to find me again
I've been trying to right the wrong I have been
All this fighting is for you in the end
In the end, in the end, in the end

Growing up El Paso
Hear the sirens roar
Mama working 'til the sun went down so we wouldn't feel the war
Growing up El Paso
Wish I would have seen
Now I'm seeking out redemption
Making right what I didn't mean

I've been fighting hard to find me again
I've been trying to right the wrong I have been
All this fighting is for you in the end
In the end, in the end, in the end

Do you know?
Do you know?
I love you so
I love you

I've been fighting hard to find me again
I've been trying to right the wrong I have been
All this fighting is for you in the end
In the end, in the end, in the end
