

Life Is Good

Alex G

Should've wrote a better song today
Could've had some brighter things to say
Stuck inside an endless drought
Nothing that I do will count
There has got to be another way

Everyone I used to know's the same
I wonder if I never should have changed
For a second I forget
There is nothing I regret
I knew that there was another way

Life is good
Don't you get stuck on should's
Got no rhythm for dancing
But watch me make a move, make a move

Cuz life is good
Yeah life is, yeah life is good
Yeah life is, yeah life is good
Yeah life is, yeah life is good

I confess that I have been afraid
That all the things I dreamed are yesterday's
Maybe I can't see the fact
I'm the one who's holding back
I gotta get out of my own way

Cuz life is good
Don't you get stuck on should's
Got no rhythm for dancing
But watch me make a move, make a move

Stop trying to live like it's yesterday
Love what you got with a warm embrace
Dance all you want, it's a brand new day

Life is good
Don't you get stuck on should's
Got no rhythm for dancing
But watch me make a move

Life is good
Don't you get stuck on should's
Got no rhythm for dancing
But watch me make a move, make a move

Cuz life is good
Yeah life is, yeah life is good
(Better watch, better watch me now)
Yeah life is, yeah life is good
(Better watch, better watch me now)
Yeah life is, yeah life is good
(Better watch, better watch me now)
Life is good
