

Too good  
That's how good it was while I had you  
Too wrong  
That's how wrong it is that you died

And mama's on the ground  
But I can't hear a sound  
And no time  
That's how much I got to prepare

And I will remember you  
I will remember you  
I will remember you  
I will remember you

Too numb  
That's how numb I've been since I saw you  
Unfair  
That's how fair it is that you're gone

And there are petals on the ground  
And everyone's around me  
And not much  
That's how much I've prayed since you left

But I will remember you  
I will remember you  
I will remember you  
I will remember you

But I will remember you  
I will remember you  
I will remember you  
I will remember you
