

Simple Kind of Love

Alex G

Remember how it felt that night
Meeting you online, romantic
And we don't
Need a fairy tale
To know that this is real
It's magic

Oh I'll never care
As long as I have you

'Cause you're right here
And that's all I need from you
Forever dear
My soul will cling to you
And I know that we're
The simple kind of love
And we don't need anything
But us

And I love
How you're so yourself
You're never someone else
Authentic
And you love
To care for all my friends
And I see beauty in
Your kindness

Oh I'll never want
More than you and me

'Cause you're right here
And that's all I need from you
Forever dear
My soul will cling to you
And I know that we're
The simple kind of love
And we don't need anything
But us

'Cause you're right here
It's all I need from you
Forever dear
My soul will cling to you
And I know that we're
The simple kind of love
And we don't need anything
We don't need anything
But us
