

Stay With Me

Alex G

I remember when we met
You turned away
Burned away
We'll never be the same

Days and weeks and months and years
All this time
Come to find
We're living on again

If there's one thing to take away, it's that I love you

All the times you make me laugh
Falling down
To the sound
Of everything you are

I remind myself sometimes
When I see
You look at me
I find it hard to breathe

The rhymes aren't perfect but neither are you
Consistently you're still so much more brilliant than me

Will you stay with me
Please stay with me

If there's one thing to take away
If there's one thing to take away

The rhymes aren't perfect but neither are you
Consistently you're still so much more brilliant than me
Will you stay with me

I remember when we met
You turned away
Burned away
We'll never be the same
