

# The Flame

Alex G

I'm not one for taking chances  
Risking everything  
But when I first saw you I could feel  
Every bone in my body  
Begging me to leave  
Said hello and your eyes met me  
The warmest blue I've ever seen

And I will take your fire and rain  
Nothing good came from something safe  
We held on in a life of wait  
I will never be the same  
You're the match, baby, I'm the flame  
I'm the flame

Years went by and the stardust  
Didn't seem to fade  
I still loved you from miles away  
Every bright constellation  
Was spelling out our names  
You keep leaving, why can't you stay  
The sweetest kiss I'll ever taste

And I will take your fire and rain  
Nothing good came from something safe  
We held on in a life of wait  
I will never be the same  
You're the match, baby, I'm the flame  
I'm the flame

Television lights your back  
You're beautiful in silhouette  
The years to come will be our best

And I will take your fire and rain  
Nothing good came from something safe  
We held on in a life of wait  
I will never be the same  
You're the match, baby, I'm the flame
