

To Be Loved

Alex G

Hand in hand, lips to cheek
Let me know if I've given you all that you need
Don't worry bout me
Giving in, growing up
All a part of a plan to be someone's enough
Oh, to be loved

But I know this place
Different road, familiar pain
Loving you is done in vain
But it's all I know

Civil wars floral sheets
Are you looking right through or do you really see
Am I this naive?
Take my breath, take it all
I am half of myself so that you can be whole
Don't pretend you don't know

'Cause I know this place
Different road, familiar pain
Giving here is done in vain
But it's all I know, oh

Love me tonight, you can leave me tomorrow
Let me believe you are not something hollow
Love me tonight, you can leave me tomorrow
Let me believe you are not something hollow

But I know this place
Different road, familiar pain
Loving you is done in vain
But it's all I know
