Too Far

Alex G

I wonder how my life would be
If I had grown up by the sea
And lived a little
I wonder if my heart could grow
If the only love I know
Was all I needed

Sometimes I wish that I
Could fly away from here
'Cause what if it all goes wrong?

Would it be bad if I drove too far
And forgot my way around?
Maybe my worry would disappear
If I'm nowhere to be found
So maybe I'll drive too far

I wonder how my voice would sound
If it was in the background
No one heard it
I wonder how it feels to speak
Still be heard without the need
To be the loudest

Sometimes I wish that I
(Sometimes I wish that I)
Could fly away from here
(Could fly away from here)
'Cause what if it all goes wrong?

Oh, my vision's blurry now
(My vision's blurry now)
I wish it all was clear
(I wish it all was clear)
Not knowing's killing me

Would it be bad if I drove too far
And forgot my way around?
Maybe my worry would disappear
If I'm nowhere to be found
So maybe I'll drive too far

Sometimes I wish that I
Could fly away from here
What if it all goes wrong?
My vision's blurry now
(My vision's blurry all now)
I wish it all was clear
(I wish it all was clear)
Not knowing's killing me

Would it be bad if I drove too far
And forgot my way around?
Maybe my worry would disappear
If I'm nowhere to be found
And lived a little

Oh (Would it be bad if I drove too far)
Oh (Forgot my way around?)
Yeah, maybe my worry would disappear
 (Maybe my worry would disappear)
If I'm nowhere to be found
 (If I'm nowhere to be found)
So maybe I'll drive too far
Maybe I'll drive too far

Oh (Would it be bad if I drove too far)
Oh (Forgot my way around?)
Yeah, maybe my worry would disappear
 (Maybe my worry would disappear)
If I'm nowhere to be found
 (If I'm nowhere to be found)
