

## Wake Up

Alex G

Leave your coat, it isn't cold out  
I'll be with you just in case  
Don't be nervous 'cause I'm here now  
Fight the urge to stay the same  
I've got my hand out, won't you reach for me  
Trying to save you but you're asleep

Darling wake up and look at me  
Everything they told you is make-believe  
I won't make you wonder if I'm real  
Darling wake up, I'll never leave  
I'll never leave

Leave your hat, I wanna see you  
Don't be scared to show your face  
'Cause you're as beautiful as heaven  
And I'm as confident as fate  
That you're my hero  
Come to rescue me  
And I wanna save you, 'cause darling, you saved me

Darling wake up and look at me  
Everything they told you is make-believe  
I won't make you wonder if I'm real  
Darling wake up, I'll never leave  
I'll never leave  
I'll never leave

Don't believe the lies  
They are trying to keep you quiet  
And don't lose your mind  
Trying to find your worth inside it

And darling wake up and look at me  
Everything they told you is make-believe  
'Cause I won't make you wonder if I'm real  
Darling wake up, I'll never leave  
Never leave
