

Never Give Up On Love

Alex Gaudino

Got a lot on your mind
Weight of the world on your shoulders
As the Earth spins around
You just feel like a bystander

Don't you let them say no, no
It's your time to let go, go
We're all looking for the same
When the sky is falling down
Ride the storm like a solo
Make the rest of them follow
Follow, make them follow

Never give up on love
Love, love, love
Gonna shake the feeling off
With love, love, love, love
Never give up on love
Love, love, love
Love, love, love, love
Love, love, love, love

Longer than life
They're all just seeking attention
Let your inner light
Light up the sky full of diamonds, oh

Don't you let them say no, no
It's your time to let go, go
We're all looking for the same
When the sky is falling down
Ride the storm like a solo
Make the rest of them follow
Follow, make them follow

Never give up on love
Love, love, love
Gonna shake the feeling off
With love, love, love, love
Never give up on love
Love, love, love
Love, love, love, love
Love, love, love, love

Never give up on love
