

# Bright Lights (Fly)

Alex Goot

Nevermind nevermind things are good again  
Took the time in my life to figure it out  
And I won't let I can't let real life bring me down  
Down down

Cuz I could run  
Across the world

Everywhere I go  
I see my name in bright lights  
If I keep it up  
I know that I could fly  
I feel like it's a good life  
And when i feel it most  
I feel like I could fly  
I could fly  
Yeah

I get away get away when I need it most  
Cuz I could find I could find myself outside  
Of the shapes and the lines that I draw  
In my mind mind mind

I've got to run  
Before it's too late

And everywhere I go  
I see my name in bright lights  
If I keep it up  
I know that I could fly  
I feel like it's a good life  
And when I feel it most  
I feel like I could fly  
I could fly  
Yeah

Bright lights in my eyes for the first time  
Watch me burn up in your atmosphere  
Bright lights in my eyes for the second time  
Watch me burn up in your atmosphere

I see my name in bright lights  
If I keep it up I know that I could fly  
I feel like it's a good life  
And when I feel it most i feel like (I could fly)

Everywhere I go  
I see my name in bright lights  
If I keep it up  
I know that I could fly  
I feel like it's a good life  
And when I feel it most (when I feel it most)  
Yeah I feel it most  
I feel like I could fly  
I could fly  
Yeah
