

# Helium

Alex Goot

When you kiss me, like you mean it  
And there's no distractions  
It's so real, I can feel it  
In my bones, it's magic  
I won't live my life, wandering  
You're still here, and I'm here  
And I'll never let you go  
(No)

I'm gonna love you 'til the stars  
Finally run out of helium  
I'm gonna love you 'til the mountains crumble at our feet  
I'm gonna love you 'til the sky  
Finally opens up to let us in  
And we'll float like helium

It's the way that you know me  
And I'll always be there  
If you need protection  
I'll be your guardian angel  
We could live our lives, wandering  
Somewhere, somehow  
And I hope you know  
I'll never let you down

I'm gonna love you 'til the stars  
Finally run out of helium  
I'm gonna love you 'til the mountains crumble at our feet  
I'm gonna love you 'til the sky  
Finally opens up to let us in  
And we'll float like helium

I'm gonna love you until the mountains fall  
I swear to God we'll see it all  
'Til the colors turn and fade to nothing

I'm gonna love you 'til the stars  
Finally run out of helium  
I'm gonna love you 'til the mountains crumble at our feet  
I'm gonna love you 'til the sky  
Finally opens up to let us in  
And we'll float like helium
