

Woman Like That

Alex Goot

Somethin' new for me
Somethin' new for you
Last night, we made love with the lights on
With the Jake Paul fight on
So unforgettable

But all my texts to you
They still say "unread"
Maybe you lost your phone, after last call
Or maybe it's my fault
What have I done?

Just like that, she's gone Houdini
Gotta call her back, 'cause I need a genie
If I got one wish, get you outta the bottle

Fuck my life!
Just my luck
Where can I find a woman like that?
Oh, show me the light!
God, oh Lord
Gettin' dizzy, hazy eyed
As I watch you

(You spin my head right round, right round)
Spin me up, not a damn thing I can do
Just my luck
I think I'd find a woman like that
If you'd just call me back

Fallin' fast for me
I made mistakes with you
What's a woman like me to do?
Didn't think that through
So unbelievable

Just be careful, boy
When you gonna learn?
Play with fire you're gonna get burned
With a woman like me
And I'm sorry

Just like that, she's gone Houdini
Gotta call her back, 'cause I need a genie
If I got one wish, get you outta the bottle

Fuck my life!
Just my luck
Where can I find a woman like that?
Oh, show me the light!
God, oh Lord
Gettin' dizzy, hazy eyed
As I watch you

(You spin my head right round, right round)
Spin me up, not a damn thing I can do
Just my luck

I think I'd find a woman like that
If you'd just call me back

Take it back, there's a dinner set for two
Hot pockets and olive garden
I know you're fancy, girl
I would do anything for you

Fuck my life, just my luck
I think you found your woman like that

Show me the light!
God, oh Lord
Gettin' dizzy, hazy eyed
As I watch you

(You spin my head right round, right round)
Spin me up, not a damn thing I can do
Just my luck
I think I'd find a woman like that
If you'd just call me back
