

Always 84

Alex Isley

Something to remind me
Always manages to find me
It's just something 'bout the timing
Yesterday is still so blinding

Always (Always)
Always (Always)
Always
Still and
Always (Always)
Always
Always

I remember pieces
And I remember leaving
I remember all the reasons
Hoping for another season

Always (Always)
Always (Always)
Always
Still and
Always (Always)
Always
Always

Something that I keep in mind
It's all too late, to left behind
I live to forget, I really try
It's all that I can do right

Always (Always)
Always (Always)
Always
Always
