

# Interstellar.

Alex Isley

Interstellar drive  
You're my addiction baby, I can't get enough  
The more I think of you the more I fall in love  
Caught in this, oddly free falling from up above  
From up above, yeah  
Interstellar love  
Still seeing glimpsed of you when I close my eyes  
Can't shake the feeling that you're always on my mind  
Forward and backward, dripping in our time  
We're outta time

I'm looking down, down  
I'm looking down, down  
I'm looking down, down  
I'm looking down

Interstellar, interstellar, interstellar love  
Interstellar, interstellar, interstellar love, love  
Interstellar, interstellar, interstellar love  
Interstellar, interstellar, interstellar love, love

Interstellar dream  
Make me reality, a planetary being  
Got my own galaxy and you're stuck in between  
You try to fight it, nothing like my gravity  
Like my gravity, yeah  
I'll take it to the sun  
I'll have you see, the stars will show you I'm the one  
Said love is on my body, slowly just begun  
Flying so high right, no we've nowhere to run  
There's nowhere to run

I'm looking down, down  
I'm looking down, down  
I'm looking down, down  
I'm looking down

Interstellar, interstellar, interstellar love  
Interstellar, interstellar, interstellar love, love  
Interstellar, interstellar, interstellar love  
Interstellar, interstellar, interstellar love, love  
Interstellar, interstellar, interstellar love  
Interstellar, interstellar, interstellar love, love  
Interstellar, interstellar, interstellar love  
Interstellar, interstellar, interstellar love, love
