

## Love Again

Alex Isley

Been looking for answers, some kinda sign  
A deeper meaning but not much to find  
Except the sun in my face and it feels right  
Had gotten used to the silence of the night

The thought of your arms, I'm already safe  
Thought I had done it all, but I've got some grace  
Even a bit of time, mmh, and space  
Reset on my heart and a brand new slate

You make me feel, me feel like I can love again  
You make me feel, me feel like I can love again

Ain't know redemption tasted oh so sweet  
Leap of faith and I landed on my feet  
Up in the air but so easy to breathe  
Doubled my hopes and gave them back to me

You make me feel, me feel like I can love again  
You make me feel, me feel like I can love again  
You make me feel like I can love  
You make me feel, me feel like I can love again
