

Square Zero

Alex Isley

Say hey, my way
Can you come my way
I've been trying to tell you why
For a long time

Left to the right, out in the dark
Show me the light, it ain't that hard, nah
Do you suppose that we can start
Long as we start somewhere?

I thought that we
Maybe could be something
Could have fooled me
We seem to be
Square zero, zero, zero
Zero, zero, zero
Zero, zero, zero
Zero, zero

I do wonder
When I'll say I do
Blurred vision of me and you
For a long time

Left to the right, still in the dark
Show me the light, is it this hard? Ah
Do you suppose that we can start
Long as we start somewhere?

I thought that we
Maybe could be something
Could have fooled me
We seem to be
Square

I pretend that it's mine, pretend that it's mine
I keep it alive, water and light
Ain't even move this whole time
I pretend that it's fine, pretend that it's fine
I say it's alright, you know that I'm lying
What we being doing this whole time?

Do you remember when
You said it was lovely
You led me on a real romance, romance
Show me the sweeter things
How can I lead you?
Get you to see the beginning? Beginning
