

# There Was Love

Alex Isley

Lean not on your own understanding  
I don't understand (I don't understand)  
Mind games mentally demanding  
So many demands (So many demands)

Broken open  
Still hopin' something will change  
Growin', holdin' on  
They're not the same  
At least I know there was love

I know there was love  
Once upon a time, I know there was love  
Love  
I know there was love  
Once upon a time, I know there was love

(Love)

We held each other near  
Faced everything we feared  
Who thought we'd ever be here?  
The words we used to say  
I thought that we could stay  
Don't know if I'm wrong to pray for someday

Broken open  
Still hopin' something will change  
Growin', holdin' on  
They're not the same  
At least I know there was love  
I know there was love  
Once upon a time, I know there was love  
Love  
I know there was love  
Once upon a time, I know there was love

I know there was love  
I know there was love  
I know there was love  
I know there was love
