

When It Rains

Alex Isley

I dream of all the things I'd never do
All the choices that I didn't choose
Do you know where it goes?
Who's to say where it goes?

Whether the weather feels hot or cold
Always new leaves turning; young to old
Do you know where the wind blows?
Who's to know where the wind blows?

Skies will change, the sun remains
Still I'll be grateful, thankful
When it rains, worries wash away
Blue where there was grey
It's really okay when it rains

Go along your way, your way to grow
You feel it oh so deep, so very close, yeah
It'll come, come into view
It'll come to pass with [?] you

The bigger picture may not be too clear
You're left to figure out what happened here
All time (yeah yeah), you'll still be here [?]
All time let's you begin

Skies will change, the sun remains
Still I'll be grateful, thankful
When it rains (yeah, when it rains), worries wash away
(Oh wash away)
Blue where there was grey (Oh, wash away)
It's really okay (yeah yeah), when it rains (when it rains)

Won't you turn around (which way you lookin' now)
Many ups and downs (which way you lookin' now)
Won't you turn around (which way you lookin' now)
Many ups and downs (which way you lookin' now, now)

Skies will change (skies will change), the sun remains (sun remains)
Still I'll be grateful (grateful), thankful
When it rains, worries wash away (oh worries wash away)
Blue where there was grey
It's really okay ([?] don't you know it's really okay), when it rains (yeah yeah)

When it rains (never mind the grey)
Worries wash away
Blue where there was grey
It's really okay, when it rains

Won't you turn around (which way you lookin' now)
Many ups and downs (which way you lookin' now)
Won't you turn around (which way you lookin' now)
Many ups and downs (which way you lookin' now)

Won't you turn around (which way you lookin' now)
Many ups and downs (which way you lookin' now)

Won't you turn around (which way you lookin' now)
Many ups and downs (which way you lookin' now)

Won't you turn around (which way you lookin' now)
Many ups and downs (which way you lookin' now)
Won't you turn around (which way you lookin' now)
Many ups and downs (which way you lookin' now)
